

POCKETSMART AI

User Interface Design

1. Introduction

The PocketSmart AI user interface is designed to provide a simple and easy-to-use experience.

2. Home Page

The home page provides access to the main features of PocketSmart AI and introduces the purpose of the application.

3. Registration Page

The registration page allows new users to create an account.

4. Login Page

The login page allows registered users to access the application.

5. Dashboard

The dashboard provides access to the available PocketSmart AI features.

6. Home Planner

The Home Planner allows the user to enter the required budget, select a room, select a style, and enter required items.

7. Generate Plan

After entering the required information, the user can select the Generate Plan button to request an AI-generated plan.

8. Result Page

The result page displays the generated plan and recommendations returned by the AI service.

Add your screenshots below each section and label them as Figure 1, Figure 2, Figure 3, and so on
